

Llswerry News Christmas 2018

Happy Christmas *Nadolig Llawen* *Feliz Natal*
Craciun Fericit *Joyeux Noel* *Feliz Navidad* শুভ বড়দিন
Buon Natale *Linksmų Kalėdų* *Mutlu Noeller* *Veselé Vánoce*
Wesołych Świąt *Frohe Weihnachten* *Veselé Vianoce*

Dear parents and carers,

The excitement of GCSE and A Level results days now seems like a distant memory as we move towards the end of the autumn term. However, a positive set of results and another improvement in the number of learners achieving at least five GCSEs (including English and maths) at A grade to C certainly set us off on an excellent footing for this academic year.

Sometimes the relentless focus on academic performance and achievement can seem to take over completely, but it's important to remember that we must also do our utmost to develop our learners to be responsible, valuable and valued members of society as they grow towards adulthood. A key aspect of this is thinking of others and being kind and generous to those less fortunate than ourselves. Once again this year, Llswerry learners have done us proud in their charity fundraising activities, including our Christmas Shoe Box Campaign and our Harvest assemblies, where we provided support for Muumba school in Zambia and for food banks here in Newport, to name but two worthy causes we have supported.

We were also very proud when our school choir was one of only two secondary school choirs in Wales chosen to perform live to the nation for BBC Children in Need, another charity we supported with events in school too. Everyone involved in the choir performed brilliantly and also enhanced the reputation of our school with their behaviour and attitude throughout their day at the television studio.

By now our Year 7 learners have settled into High School life. They know their way around, have made lots of new friends and many have visited my office to receive a 'Headteacher's Commendation' for excellent effort or performance. Our Year 11 learners are coming to the end of their Pre-Public Examinations (PPEs) – or 'mocks' as we might have called them - and this will undoubtedly stand them in good stead for the exams to come next year. Our Sixth Formers have also settled in to a slightly different style of education, where independent learning is even more vital than it was in previous years. Of course we cannot forget Years 8, 9 and 10 (Year 10 also have exams this year) as they continue to progress through the school, developing their knowledge, understanding and skills as they go.

With darker evenings comes the need for even more care on the roads. I'd like to ask all parents and carers to remind their children once again of the need to be careful on their journeys to and from school, including those who travel by bike. We have had incidents reported of learners walking and riding into the road without checking for traffic and also pushing each other accidentally into the road when fooling around, as we know children and teenagers do. The main entrance of the school at the end of the day is a particularly congested area so please remind your child to be extra careful in that area too.

Our extensive range of transition activities with our cluster learners has continued once more and last week we held our Cluster Christmas Concert. For this event, learners from Lliswerry, Maindee, St. Andrews and Somerton Primary Schools performed with our own learners in what was a fabulous evening of festive performances. It really did feel like it officially launched the Christmas period!

Finally, I would like to take this opportunity once again to thank you for your continuing support and to wish you all a merry Christmas and a happy and peaceful New Year.

Mr N Davies
Head teacher

Year 8/9 Girls into STEM trip – BT Data Centre, Cardiff

In October, six female KS3 pupils visited the BT Data Centre in Cardiff as part of a drive to encourage the uptake of STEM (Science, Technology, Engineering & Maths) subjects at GCSE and beyond. A data centre is a dedicated space where companies can keep and operate most of their ICT infrastructure and this one, with its three data halls, has capacity to house around 12,000 servers. The centre in Cardiff also has the capacity for 300 support staff all employed in different technological areas so our learners were able to find out about the wide variety of career opportunities at BT. Of particular interest were the amount of different apprenticeships available.

During the visit our learners were able to take part in several activities designed to see how they worked together as a team, a skill much in demand by employers today. In addition, they were taken on a tour of the data centre, an experience not open to the general public.

Jacie (9CHP) said, “I enjoyed the tour and all the different activities as it helped me learn what options there would be for me in the future.”

Ellis (9LD) said, “I found the trip to BT interesting as we learnt about all the different forms of engineering as well as taking part in lots of different teamworking games.”

Hafiza & Julia (8PA) and Katie (9LD) all agreed that a career at BT would be an amazing opportunity for anyone interested in computing and/or engineering and that visiting the data centre was extremely beneficial in helping them decide where their career aspirations might lie.

Staff at the BT Data Centre commented on our learners’ excellent approach to the teamworking tasks, their interest, enthusiasm, good manners and behaviour and said that, as a school, we would be welcome to return at any time.

Mrs Ashford

CPR Training

As part of PSHE, learners in years 7, 8 and 9 have been doing CPR training. The school was donated 30 CPR dummies by the British Heart Foundation, who hope to build a "nation of lifesavers". We are doing our part by aiming to train all KS3 learners in CPR this year. You can follow their progress on Twitter by searching for #lliswerrylifesavers and you can find out more about CPR at bhf.org.uk.

Amira Jones (7DHE)

We learned how to use CPR on a dummy in case we need it in the future. To start CPR, we had to find a partner and collect the dummy. Next, we had to blow up the dummy with the air bag and wipe the dummy's face with a disinfectant wipe. Then we shook the dummy's shoulders gently, asking them "Hello, are you OK?". If there is no response, you lift the dummy's chin with two fingers, making sure that you're not touching the neck. If you are touching their neck, you might be blocking the air from travelling to their chest.

Evan Murray (7DHE)

We learnt how to do chest compressions and mouth to mouth. To do chest compressions, you make your elbows straight and push hard in the centre of the chest with the feel of your hand. If you're using a dummy, you should hear a click. We repeated that thirty times. To do mouth to mouth, you lift the chin with two fingers, tilt the head back slightly, pinch the nose and breathe for them. You do this twice and then do thirty chest compressions. If you are in a real situation, keep repeating this until a professional comes and takes over. Overall, this is a very useful skill to learn in life in case you need to save someone - but hopefully you won't need to use it!

Ms Hendra

BAE Systems STEM Presentation

On Tuesday 27th November, we were fortunate enough to be visited by a team from BAE systems. Throughout the show, year 7 and 8 learners were introduced to a series of fun and fascinating ways in which Maths is used in everyday life, including examples of the practical application of mathematical techniques within BAE Systems, the RAF and the Royal Navy. Our learners were introduced to the most up to date technologies to demonstrate the importance of Maths in the future of Engineering.

Both year groups were fantastic, with many getting involved with the practical activities.

Mr Jones

Charity Appeal

Llisbury High School is supporting the provision of polio vaccines

Even though Polio is eradicated in the UK, there are still three countries in the world - Pakistan, Afghanistan and Nigeria - where it remains a real threat. Llisbury High School staff and learners are joining together with Rotary International to help provide polio vaccinations for those still at risk.

Did you know that, by collecting just 500 clean plastic bottle tops and passing them on for recycling, the profits made from their sale will provide one vaccination? We are asking you all to help us collect as many tops as we can so that, in turn, we can help provide these desperately needed vaccinations.

Please wash bottle tops (notably those from milk and drinks bottles), place them in a suitable container and give them to your child to bring in to school. They can be given to any member of the Eco Initiative, Miss Prosser or Mrs Ashford.

Thank you for your support.

Children In Need Choir

It looked just like any other email: "Would your choir like to perform live at the BBC studios in Llandaff for Children In Need?" We didn't need to think twice about the answer - of course we would!

Twenty Nine pupils fitting the BBC's age criteria were selected. Some were more experienced performers and some less but all had the enthusiasm and dedication to meet the challenge. The choir were to join with three other choirs from around South Wales (one high school and two primary schools) to perform the hit song *A Million Dreams* from *The Greatest Showman* live on Children In Need on the night of the 16th November.

Following the initial rehearsals, the conductor, Eilir Owen Griffiths, visited the school with a camera crew to put the choir through their paces. A few fun warm ups were followed by the more serious business of preparing for a performance which would be seen and heard across the whole of Britain. The nerves were beginning to show - would they cope with the pressure?

As the big day approached, the rehearsals stepped up and soon it was time. As the choir stepped onto the studio stage surrounded by friends and family, the countdown began. From the first note, it was clear that this performance would be their best yet and, as they reached the line “However big, however small, let me be part of it all”, you felt the hairs stand up on the back of your neck as you realised that millions of people were watching and listening to our fabulous learners.

A huge “congratulations” to the learners who took part. Not only was their performance outstanding, but they were also impeccably behaved and a credit to our school. They have made us extremely proud and I have to say it is and will always be one of the proudest moments of my 17 years at Lliswerry High.

Mrs Maynard

MERRY CHRISTMAS

Engineering Trip – University of South Wales

Our visit to the University of South Wales' Treforest Campus proved to be an insightful and enlightening experience giving students interested in STEM subjects a chance to appreciate the study of engineering at degree level. Our group of students, each interested in a career in Science, Technology, Engineering and Maths, were invited for a variety of 'taster experiences' across a number of engineering fields.

The first session was devoted to the fundamentals of electronic and electrical engineering. The group was given a tour of the campus' electronics department and the staff demonstrated a number of projects such as a clock made using a rotating LED display and the University's resident robot, Pepper. We were then provided with electronic breadboards - construction bases for creating prototype circuits. We split into pairs and used a range of components to create a timing circuit that would count up using LEDs.

Our next session, situated in the department of Civil Engineering saw four teams battling to create the most effective bridge design spanning a 30cm gap using K'Nex construction pieces. Professors of Civil Engineering gave us an insight into the reasons behind the structural integrity of modern bridges, subtly hinting at using triangles in our designs to create the strongest structures. Our two Lliswerry teams placed 1st and 3rd, with the former bridge withstanding 15kg of weight before collapsing.

The third session focussed on computational dynamics in Mechanical Engineering. Once seated at computers with the USW's simulation environment loaded, we were given step-by-step instructions in how to generate a virtual cylinder of steel before simulating it smashing into a rigid surface at roughly the speed of sound. We discovered how metals would behave under such immense forces and how they would become compressed and deformed as a result.

Our final session in the department of Aeronautical Engineering demonstrated the key principles that allow aircraft to take flight. We were shown how air pressure is affected by the orientation of an aerofoil in a large wind tunnel and how pressure changes allow aircraft to take off and manoeuvre in the air.

The trip helped a number of our students decide which of the specific fields of engineering they would be most interested in when it came to future study and careers. For others, it served as an introduction into how research is conducted in a university setting.

Given the opportunity I am sure that our group would happily return for another visit and I would highly recommend this kind of experience for students considering a career in STEM.

Morgan Ali (Year 13)

Performing Arts team film debut

Last year, a small number of GCSE Drama students were lucky enough to play extras in the film 'Two for Joy'. This was out in cinemas across the country in October and it was lovely to see our students performing alongside stars such as Samantha Morton and Billy Piper, who stars in the production. Well done!

School Production: Buggy Malone

The cast of 'Buggy Malone' has been extremely busy rehearsing day and night for the forthcoming show. The show will take place in February on Wednesday 20th and Thursday 21st. In particular, we would like to say a special thank you to ex-pupil Kate Poole who has been working closely with the cast on vocal coaching and choreography. Kate studied both Drama and Music GCSE at the school and then went on to study BTEC Performing Arts and a Drama degree.

She now runs two very successful theatre companies including The Applause Theatre Company and KP Productions.

Kate said, "It is lovely to return to the school and help out with the production. I was actually in Buggy Malone myself many years ago and played the role of Fizzy. This is where my love for the theatre started and I think school productions are a brilliant way of getting pupils involved in a whole school event."

"There is a lot of talent at the school and Lliswerry has always had a very strong tradition of performing great musicals. It is often what students remember most when they leave."

Mrs James-Williams

Tickets for Buggy Malone are on sale from the first week in January

Cardless Catering is Coming to Lliswerry High

We are delighted to announce that our catering partner Chartwells will be installing a cardless catering system in the school in both canteens in February 2019. This new system will allow us to continue to develop the school meal service and will provide a more efficient, faster and ultimately better quality of service.

Whereas the current system requires learners to carry a card with them which is preloaded with cash, the new system will work on Biometrics. Therefore the system will recognise your child's individual thumb print and this is all they will need to pay for their meals at the tills, providing they have money on their account!

As per current legislation, we need to operate an "Opt-In" policy. We therefore require your consent to register your child on the biometric system. You will have been sent a letter which requires you to sign and return the slip so we may register your child. Please be reassured that we have carried out all of the necessary checks to ensure your child's data is safe and nothing personal will be at risk. You may, of course, choose not to sign up for biometric catering but if you do not then your child will be issued with a four digit pin to use at the till points. These do not offer the same level of security and flexibility and of course rely on your child remembering their pin. For that reason, we recommend completing the slip to allow us to sign them up.

The most effective way to use the cashless system is also to ensure you are registered for ParentPay; this will allow you to add funds to your child's account without them ever having to carry cash to school. This offers a much safer way for them to access their meals with no risk of money being lost or even stolen from them. If you need to be given the details for ParentPay, please let us know and we can organise this easily. The school finance office will be carrying less cash in future so we cannot guarantee to be able to give change to learners.

If your child qualifies for Free School Meals, please be assured that this will be pre-loaded onto the system so your child will be able to access their meal in exactly the same way as everyone else, simply by swiping their finger!

If you have any queries please contact our GDPR Officer Mr Jan de Clare at the school.

Mr de Clare

Children in Need

The Sixth Form ambassador team once again led the organisation of a number of events to raise money for Children in Need. A lunchtime penalty shootout took place at the Gol, with Sam Burden Year 10 and Mason Sims Year 9 bravely volunteering to play in goal. Mason faced the challenge of our Year 9 and KS4 learners whilst Sam met our Year 7 and 8 learners. Both goalkeepers faced some superb penalties from over fifty learners! Scoring the only goal against Sam, our Year 7/8 winner was Charlie Taylor-Hiscocks! Ellis McLoughlin triumphed in the Year 9/KS4 competition! Well done to Charlie, Ellis and all those who took part!

Throughout the week, when the weather would allow, a Sixth Form table tennis tournament took place. After some closely fought matches, the finalists were Year 12 learners Imran Hossain and Asif Raza. With lots of support cheering on both boys, Asif was finally crowned as champion. Well done Asif and all involved!

MERRY CHRISTMAS

Finally, the Sixth Form and staff put on a lunchtime talent show. A packed school hall was treated to a preview of the choir's BBC performance, a lip sync battle between One Direction and The Spice Girls, a ballet performance by three of our Year 13 boys, as well as band performances and a singing Mr Godfrey! The event, presented by Rio Burgoyne and Hannah Ford, was the end of a week of fun and hard work and was thoroughly enjoyed by all of those who took part and by the audience. The final total raised for Children In Need was £240! Well done to the Sixth Form team and thank you to all who donated!

Miss Reynolds

Outdoor Improvements

Last year, we were fortunate to be able to access grant funding to improve our school environment. It's taken quite a while to go through all of the stages necessary to turn a grant into real outcomes but we've finally got there!

We have been able to improve the environment for our learners by installing two gazebos and a 'trim trail' range of outdoor fitness equipment set on artificial turf.

The gazebos can be used by learners at break and lunch time and will also double up as outdoor classrooms when the weather improves. Whiteboards are to be installed to support this use. The trim trail can also be used at break and lunch times and is also available for our PE department to use as part of their lessons. Additionally, we have been able to install artificial turf under the existing outdoor gym equipment in order to make this area usable all year round.

These improvements have been great for our learners and more improvements will be taking place in the Year 7 Quad in February half term - further updates to come in our next newsletter!

Snowman Trail Project

We were delighted to be invited to take part in the Lliswerry Community Association Snowman Trail Project. Four learners from our Eco Committee, Summer Higgs, Amelia Hunt, Julia Panasiuk and Fatima Tahir, did their own designs for our Lliswerry High School snowman. They worked collaboratively to produce their final design from a combination of their ideas. They made their final design using recycled card, paint, plastic bottle tops and even a recycled school tie! If you are taking part in the snowman trail, you will find it on display at the front of the building near the school car park. Happy snowman hunting!

Mr Maunder

Evie Flage-Donovan

Evie is a Year 7 pupil who is an elite gymnast following the elite pathway.

Evie's gymnastic career started at Newport Girls Gymnastics Club at the age of 5. After working hard, she managed to qualify for the Welsh Finals as part of the South East Wales team. As a team, they competed against all other regions across Wales. Evie performed so well that she was offered a trial at Cardiff Central Youth Club.

Again, through her dedication and determination, she was offered a place to train permanently with the Cardiff Central Youth Club. Evie said, "At first it was very difficult. The training was much harder than I was used to but after a few weeks I began to feel stronger and the training wasn't as painful and I progressed through to the levels and groups, up to the elite pathway."

With Cardiff Central Youth Club, Evie has progressed through the elite levels and had the opportunity to compete all across the UK. She has represented Wales at the British National Finals and helped Team Wales win Gold in 2017; she has also won a Bronze Medal at the British Team Finals this year.

Most recently, Evie competed at the Voluntary Level 2 British Finals finishing 18th overall in the UK. She was placed 7th in GB for the beam and 9th in GB on the floor. Evie has now been selected as part of the Welsh Preparation Squad for 2019.

Evie's ambition now is to work hard for her next competition which is at the British Compulsory Level 1 Finals in February. She aims to pass this level to qualify for the full British Championship at Liverpool in the Echo Arena in March 2019. She said, "If I achieve this, it would be really nice as I will be with all the big gymnasts."

Well done Evie, all of us at Lliswerry High are so proud of you and wish you all the best of luck!

Mrs Cooper

Mental Health Debate

A huge congratulations to Rachael Huddleston Smith and Hasan Ahmed, both year 9, who represented Lliswerry High School at a mental health debate. The debate was held by the Royal College of Psychiatrists at the All Nations Centre in Cardiff. Our learners had to debate whether exam results are critical to success.

In total, pairs of students from eight Newport high schools debated and I'm very proud to say that our learners held their own against some strong competition. They debated the topic with great insight, linking it to mental health with sensitivity and maturity.

Rachael and Hasan – as well as Raihan Noor, who prepared as a reserve – put a huge amount of time and effort into learning their arguments. The three of them developed their debating skills significantly and were enthusiastic. Thank you as well to the sixth form learners who helped Rachael and Hasan prepare, giving up their own free time to support them.

Ms Hendra

Centre Alive With the Sound of Lliswerry

In demand following their performance live on BBC Children In Need, the choir was invited to perform at the Gwent Music Support Service Christmas Extravaganza at the Newport Centre on Sunday, 9th December.

As the only choir among county level groups, ranging from wind bands to orchestras, they more than held their own and represented the school to a high standard with their performance and conduct; they earned well-deserved praise from the staff of the Music Service and the audience.

Accompanied by the school band, Mantis, they performed three songs: the Shakin Stevens classic 'Merry Christmas Everyone', 'A Million Dreams' from the Greatest Showman and Mariah Carey's 'All I Want For Christmas Is You'. A huge congratulations to all of the performers and a special mention to the Million Dreams soloists, Alisha Thompson and Mr Luff. Thank you also Mr Metcalf and Mr Fry from the Music Service.

Festive Fundraising

Staff and learners have raised over £200 for Save the Children! We donned our favourite Christmas jumpers for the day on 12th December and made donations which will go towards food, healthcare, education and protection for children all around the world. Thank you to everyone who donated - you all looked very festive!

Literacy and Numeracy PPEs

All year 7, 8 & 9 learners will be sitting a literacy and numeracy PPE during the spring term. For the first time the numeracy procedural assessment will be completed online over the course of the term. The numeracy reasoning and literacy reading assessments will continue to be paper based and will take place between Monday 21st January and Friday 25th January 2019.

These assessments are essential to prepare your child for the national tests that your child will sit in the summer which are part of the Welsh Government National Literacy and Numeracy Framework (LNF), which supports children in Wales to develop excellent literacy and numeracy skills during their time at school. The results of the PPEs will allow the school to support your child with identified areas of improvement. It is therefore essential that your child attends these tests and we look forward to your support in helping your child make progress with their literacy and numeracy skills.

Examinations – Summer 2019

GCSE and GCE examinations will start in May and conclude in June. Examination timetables will be provided to all learners in March 2019.

For the first time awarding bodies have designated a 'contingency day' for examinations in the event of national or local disruption to examinations. This means that learners need to remain available until **Wednesday 26 June** in the event the awarding body need to reschedule an examination.

Fixed Penalty Notices

Following the announcement of Fixed Penalty Notices the Llswerry Cluster Schools are now issuing these Notices in cases where there are 10 sessions of absence (1 session = half a day) in a term. This is in support of our drive to improve attendance in all our schools across the cluster.

Sick Learners

Learners:

- Q. What should I do if I feel unwell in a lesson?
- A. Tell your teacher and he/she will give you a red exit slip to leave the classroom to go to the medical room in learner reception.
- Q. What should I do if I feel unwell at break time or lunchtime? (If the bell goes for the start of the lesson, you must go to your lesson and speak to your teacher.)
- A. Go to learner reception and the staff there will help you.
- Q. Should I contact my parents and ask to be collected?
- A. No, the staff on learner reception will contact home if you need to be sent home.
- Reminder: You should not use your mobile phone whilst in the school building**
- Q. Who can give me permission to go home if I am unwell?
- A. Your Head of Year or Head of Key Stage or a Senior Member of Staff

Parents:

We have recently had a number of parents called to school by their children without the staff having any knowledge of a learner feeling unwell. Parents are asked for their support in the process above and to wait for the school to contact them to collect their child.

School Shop

Lliswerry school stationery shop.

Open between 1:30 and 1:50pm in B13 meeting room.

The school shop stocks everything you need for school at very reasonable prices!
