## Headteacher's Update

Dear Parents and Carers,

A really busy week this week, if you aren't following us already please use the link below to see all the amazing things we do.

**CLICK HERE**

This week, members of our School Council have been delivering assemblies to all year groups about Show Racism The Red Card ready for the national Wear Red Day. This is an important part of their work and our work as a school towards the Anti-Racist Wales Action plan.

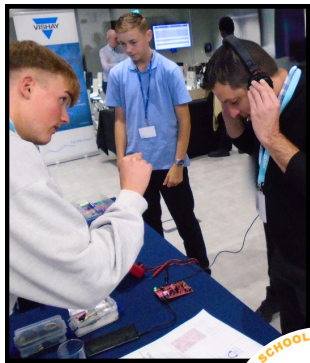

Last week, some Year 11 learners hosted a Healthy Living event for our Year 7 and 8 learners as part of their Work skills qualification. This involved the making and putting up of displays in the canteen about the different aspects of healthy eating. They delivered a PE lesson to a Year 7 class focusing on resilience and team work. They also prepared and made healthy fruit kebabs which they handed out at lunchtime to Year 7 and 8 learners. The learners worked incredibly hard on this and showed excellent teamworking skills to deliver a very high quality event. Well done!

A tough one to take for the Year 11 football team who went out of the Welsh Cup on penalties after a 2-2 draw with Afon Wen. Our two goals were goal of the season contenders and both scored by Hussain A. who beat 3 or 4 players before calmly slotting past the keeper for both. Their teacher was extremely complimentary of our boys who said "the better side lost". They look to get back to their winning ways next week in their fixture away to St Julian's.

Efforts to High Things

# CATAPULT

Compound Semiconductor Applications

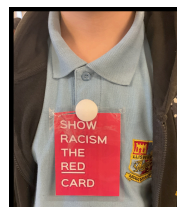

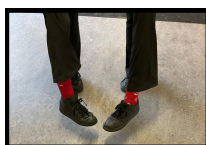

Year 10 and 11 learners who are studying GCSE Electronics went on a visit this week. They had presentations from 3 semi-conductor multinational companies, learning about the variety of engineering jobs they offered and the different pathways available. The learners were given a tour of the labs and engineers gave demonstrations from each lab. Finally, the learners were then given the opportunity to try some activities. These included programming a car to follow a track, digital electronics using light and sound sensors to activate music through headphones, a steady hand game and trying on a suit used in a semi-conductor clean room to prevent any dust/fibres damaging the semi-conductor wafer.

## Wear Red Day

2025 is the 11th Anniversary of Wear Red Day. We are proud to be supporting this event!

**CHANGE HEARTS. CHANGE MINDS. CHANGE LIVES.  
BE A PROUD ANTI-RACIST. BE THE DIFFERENCE**

We are planning to go to Bormio-4-Valli in Italy during February half term 2027. The trip includes ski hire, ski instructors for the duration of the trip, food and accommodation as well as evening entertainment. Details will be sent out via school comms today and the trip will launch on parent pay **Wednesday 22nd October**.

## Upcoming Dates

- **Friday 17 October - Year 10 & 11 Progress and Wellbeing update sent home**
- **Thursday 23 October - Year 7 Transition Wellbeing Evening 3.30-6.30pm**
- **Friday 24 October - Year 7 Progress and Wellbeing update sent home**
- **Monday 3 November - Return to School (Week 1)**

Thank you to all our families and our community for your continued support.

Best wishes,

*J Fitzgerald*
